Be SMART on the Internet

S	**Safe** **Keep safe by being careful not to give out personal information - such as your full name email address, photos or school name - to people you are chatting to online.**	WHO wants the information? WHY are they asking for it? WHAT will they do with it?
M	**Meeting** **Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.**	WHY should you never arrange to meet anyone you have only met on line? WHAT might happen? WHO should you tell?
A	**Accepting** **Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems - they can contain viruses or nasty messages!**	WHO sent it? WILL it safe to open it? WHAT can I do to protect myself and the computer?
R	**Reliable** **Information you find on the internet may not be true, or someone online may be lying about who they are.**	WHETHER I can rely on information on websites to be true. Whether I can rely on someone I can't see telling me the truth. WHAT can I do to check?
T	**Tell** **Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried online.**	WHAT can I do when websites and messages make me feel uncomfortable? WHO can I tell? WHAT can I do to stop it happening again?
